About the Company:

Depository Trust and Clearing Corporation (DTCC) is a US-based company serving as the premier post-trade market infrastructure. They handle trillions of dollars in daily securities transactions, acting as a central hub for global trading. Through subsidiaries, they simplify clearance, settlement, asset servicing, and data management for various financial instruments. DTCC's user-owned structure enables them to anticipate market needs, providing solutions that reduce costs, enhance efficiency, and ensure industry stability.
